Assembly Instructions for Connecting Multiple Under The Rack Containment Tray Assemblies

Part #	# of Containment Trays	# of Connectors Covers
PAK963	1	0
PAK964	2	1
PAK965	3	2
PAK966	0	1

- STEP 1** Place the Connector Cover over the mating edge seams of the Containment Trays.
- STEP 2** Each end of the Connector Cover should extend over each end of Containment Tray.
- STEP 3** One side wall of the Connector Cover should extend down inside of each Containment Tray.
- STEP 4** The total width of the Containment Tray Assemblies may be adjusted by sliding the Connector Trays closer together or pulling them apart. Multiple Containment Trays maybe assembled together.
