SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name: #112 Epoxy Binder Resin – Part A
Chemical name: Bisphenol a-epichlorohydrin polymer
CAS No: 25068-38-6
Product code: Pox-A-Crete #112 Binder Part-A

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/mixture: Part-A of a two part epoxy resin mortar.

1.3. Details of the supplier of the safety data sheet

Midwest Industrial Products Corp.
7424 Bessmer Ave.
Cleveland, Ohio 44127
Service: 800.521.2107
Product Stewardship: +1.216.771.8555
www.midwestindustrial.net

1.4. Emergency telephone number

Emergency number: CHEMTREC (US Transportation) : 800.424.9300
CHEMTREC (Outside USA) : +1.703.527.3887

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification (GHS-US)
- Skin Irrit. 2 H315
- Eye Irrit. 2A H319
- Skin Sens. 1 H317

Full text of H-phrases: see section 16

2.2. Label elements

GHS-US labelling

Hazard pictograms (GHS-US): GHS07

Signal word (GHS-US): Warning

Hazard statements (GHS-US):
- H315 - Causes skin irritation
- H317 - May cause an allergic skin reaction
- H319 - Causes serious eye irritation

Precautionary statements (GHS-US):
- P261 - Avoid breathing mist/vapors/spray
- P264 - Wash exposed areas thoroughly after handling
- P272 - Contaminated work clothing must not be allowed out of the workplace
- P280 - Wear protective gloves/protective clothing/eye protection
- P302 + P352 - If on skin: Wash with plenty of water
- P305+P351+P338 - If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
- P333+P313 - If skin irritation or rash occurs: Get medical advice/attention
- P337+P313 - If eye irritation persists: Get medical advice/attention
- P362 - Take off contaminated clothing and wash before reuse

2.3. Other hazards

No additional information available

2.4. Unknown acute toxicity (GHS-US)

None of the ingredients are of unknown toxicity.
**SECTION 3: Composition/information on ingredients**

3.1. Substance

Name: Pox-A-Crete #112 Part-A, Epoxy Resin Part-A

CAS No: 25068-38-6

3.2. Mixture

Not applicable

**SECTION 4: First aid measures**

4.1. Description of first aid measures

First-aid measures general: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).

First-aid measures after inhalation: Allow victim to breathe fresh air. Allow the victim to rest.

First-aid measures after skin contact: Wash with plenty of soap and water. Either discard or wash contaminated clothing and shoes before reuse. If skin irritation occurs: Get medical advice/attention.

First-aid measures after eye contact: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

First-aid measures after ingestion: Rinse mouth. Do NOT induce vomiting. Obtain emergency medical attention. Make sure victim is conscious and alert. Never give anything by mouth to an unconscious person. If so, give 2-3 glasses of water to dilute. Do not leave victim unattended as spontaneous vomiting may occur. Lay victim on side with head lower than waist to prevent aspiration of swallowed product. If victim is conscious and vomiting occurs, give water to further dilute the chemical.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/injuries after inhalation: May cause an allergic skin reaction.

Symptoms/injuries after skin contact: Causes skin irritation.

Symptoms/injuries after eye contact: Causes serious eye irritation.

4.3. Indication of any immediate medical attention and special treatment needed

If breathing is irregular or stopped, administer artificial respiration and call 911.

**SECTION 5: Firefighting measures**

5.1. Extinguishing media

Unsuitable extinguishing media: Do not use a heavy water stream.

5.2. Special hazards arising from the substance or mixture

No additional information available

5.3. Advice for firefighters

Firefighting instructions: Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Prevent fire-fighting water from entering environment.

Protection during firefighting: Do not enter fire area without proper protective equipment, including respiratory protection.

**SECTION 6: Accidental release measures**

6.1. Personal precautions, protective equipment and emergency procedures

6.1.1. For non-emergency personnel

Emergency procedures: Evacuate unnecessary personnel.

6.1.2. For emergency responders

Protective equipment: Equip cleanup crew with proper protection.

Emergency procedures: Ventilate area.

6.2. Environmental precautions

Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters.
6.3. Methods and material for containment and cleaning up

Methods for cleaning up: Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage. Do not flush to sewer. If area of spill is porous, remove as much contaminated earth and gravel, etc. as necessary and place in closed containers for disposal. Store away from other materials.

Wear the appropriate personal protective equipment, remove the leaking container to a containment area and place into an appropriate container to prevent any further spill.

6.4. Reference to other sections

See Heading 8. Exposure controls and personal protection.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Precautions for safe handling: Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. Avoid breathing dust/fume/gas/mist/vapors/spray.

Hygiene measures: Wash exposed areas thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reuse.

7.2. Conditions for safe storage, including any incompatibilities

Storage conditions: Keep only in the original container in a cool, well ventilated place. Keep container closed when not in use. Storage temperature: (50°F) minimum to (75°F) maximum.

Incompatible products: Strong bases. Strong acids.

Incompatible materials: Sources of ignition. Direct sunlight. Do not allow product to contact open flame or electrical heating elements because dangerous decomposition products may form.

7.3. Specific end use(s)

No additional information available

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

<table>
<thead>

</tr>
</thead>
<tbody>
<tr>
<td>ACGIH</td>
</tr>
<tr>
<td>OSHA</td>
</tr>
</tbody>
</table>

8.2. Exposure controls

Engineering controls: Adequate ventilation and eye-wash and safety shower should be provided in the work area.

Personal protective equipment: Avoid all unnecessary exposure.

Hand protection: Wear protective gloves. Wear impervious compatible chemical resistant protective clothing such as neoprene or butyl rubber gloves, aprons, boots or Tyvek coveralls, as appropriate to prevent contact with skin.

Eye protection: Chemical goggles or safety glasses.

Skin and body protection: Wear suitable protective clothing.

Respiratory protection: If required, wear NIOSH-approved respirator.

Other information: Do not eat, drink or smoke during use.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

<table>
<thead>
<tr>
<th>Physical state</th>

</table>
Relative evaporation rate (butyl acetate=1) : No data available
Flammability (solid, gas) : No data available
Explosion limits : No data available
Explosive properties : No data available
Oxidizing properties : No data available
Vapor pressure : Heavier than air.
Relative density : No data available
Relative vapor density at 20 °C : No data available
Density : 9.510 lbs./gallon
Solubility : No data available
Log Pow : No data available
Log Kow : No data available
Auto-ignition temperature : No data available
Decomposition temperature : No data available
Viscosity : 4500 - 6500 cP
Viscosity, kinematic : No data available
Viscosity, dynamic : No data available

9.2. Other information
VOC content : < 0.01 g/l estimated for this component only. Consult the manufacturer or product data sheet for final mixed product VOC content.

SECTION 10: Stability and reactivity

10.1. Reactivity
No additional information available

10.2. Chemical stability
This material (product) is stable under normal ambient conditions of temperature and pressure. Follow recommendations for proper storage and use.

10.3. Possibility of hazardous reactions
Hazardous polymerization: No

10.4. Conditions to avoid
Avoid contact with strong acids or caustics.

10.5. Incompatible materials

10.6. Hazardous decomposition products

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute toxicity : Not classified
Skin corrosion/irritation : Causes skin irritation.
Serious eye damage/irritation : Causes serious eye irritation.
Respiratory or skin sensitization : May cause an allergic skin reaction.
Germ cell mutagenicity : Not classified
Carcinogenicity : Not classified
Reproductive toxicity : Not classified
Specific target organ toxicity (single exposure) : Not classified
Specific target organ toxicity (repeated exposure) : Not classified
Aspiration hazard : Not classified
Potential Adverse human health effects and symptoms : No additional information available
### Symptoms/injuries after inhalation:
- May cause an allergic skin reaction.

### Symptoms/injuries after skin contact:
- Causes skin irritation.

### Symptoms/injuries after eye contact:
- Causes serious eye irritation.

#### SECTION 12: Ecological information

12.1. **Toxicity**
- No additional information available

12.2. **Persistence and degradability**
- **Pox-A-Crete #112 Binder Part A (25068-38-6)**
  - Persistence and degradability: Not established.

12.3. **Bioaccumulative potential**
- **Pox-A-Crete #112 Binder Part A (25068-38-6)**
  - Bioaccumulative potential: Not established.

12.4. **Mobility in soil**
- No additional information available

12.5. **Other adverse effects**
- Other information: Avoid release to the environment.

#### SECTION 13: Disposal considerations

13.1. **Waste treatment methods**
- Waste disposal recommendations: Dispose in a safe manner in accordance with local, state and federal regulations.
- Ecology - waste materials: Avoid release to the environment.

#### SECTION 14: Transport information

- **Department of Transportation (DOT)**
  - In accordance with DOT
- **ADR**
  - No additional information available
- **Transport by sea**
  - No additional information available
- **Air transport**
  - No additional information available

#### SECTION 15: Regulatory information

15.1. **US Federal regulations**
- **Pox-A-Crete #112 Binder Part A (25068-38-6)**
  - SARA Section 311/312 Hazard Classes:
    - Immediate (acute) health hazard
    - Delayed (chronic) health hazard

15.2. **International regulations**
- **CANADA**
  - No additional information available
- **EU-Regulations**
  - No additional information available
- **Classification according to Regulation (EC) No. 1272/2008 [CLP]**
  - No additional information available
- **Classification according to Directive 67/548/EEC [DSD] or 1999/45/EC [DPD]**
  - No additional information available
- **National regulations**
  - No additional information available
15.3. US State regulations
No additional information available

SECTION 16: Other information

Other information: None.

SDS US (GHS HazCom 2012)

This SDS to the best of our knowledge conforms to the requirements of OSHA 29 CFR 1910.1200, 91/155/EEC and summarizes the health and safety hazard information and general guidance on how to safely handle the material at the date of issue. Each user must review the SDS in the context of how the product will be handled and used in the workplace. If clarification or further information is needed to ensure that an appropriate risk assessment can be made, the user should contact this company. Responsibility for the product sold is subject to our standard terms and conditions, a copy if which is available upon request. This company warrants only that its products meet the specifications stated in the sales contract. Typical properties, where stated, are to be considered as representative of current production and should not be treated as specifications. While all the information presented in this document is believed to be reliable and to represent the best available data on these products, NO GUARANTY, WARRANTY, OR REPRESENTATION IS MADE, INTENDED, OR IMPLIED AS TO THE CORRECTNESS, OR SUFFICIENCY OF ANY INFORMATION, OR AS TO THE MERCHANTABILITY OR SUITABILITY OR FITNESS OF ANY CHEMICAL COMPOUNDS OR OTHER PRODUCTS FOR ANY PARTICULAR USE OR PURPOSE, OR THAT ANY CHEMICAL COMPOUNDS OR OTHER PRODUCTS OR THE USE THEREOF ARE NOT SUBJECT TO A CLAIM BY A THIRD PARTY FOR INFRINGEMENT OF ANY PATENT OR OTHER INTELLECTUAL PROPERTY RIGHT. Some of the information presented and conclusions drawn herein are from sources other than direct test data on the product itself. Liability by this company for all claims, whether arising out of breach of warranty, negligence, strict liability, or otherwise, is limited to the purchase price of the material. Products may be toxic and require special precautions in handling. For all products listed, the user should obtain detailed information on toxicity, together with the proper shipping, handling and storage procedures, and comply with all applicable safety and environmental standards. Toxicity and risk characteristics of chemical compounds and other products may differ when used with other materials or in a manufacturing or other process. Those risk characteristics should be determined by the user and made known to handlers, processors, and end users.
