# **SAFETY DATA SHEET**

Date of issue/Date of revision 3 March 2022 Version 4

| Section 1. Identification                                   |   |  |
|---|---|--|
| Product name  | : PTY340 WHT. 803 - 6-PK.NEW PIG  |  |
| Product code  | : FG557803105-6   |  |
| Other means of<br>identification                            | : Not available.  |  |
| Product type  | : Solid.  |  |
| Relevant identified uses of                                 | the substance or mixture and uses advised against   |  |
| Product use   | : Industrial applications.  |  |
| Use of the substance/<br>mixture                            | : Coating. Paints. Painting-related materials.  |  |
| Uses advised against  | : Not applicable.   |  |
| Manufacturer<br><u>Emergency telephone</u><br><u>number</u> | <ul> <li>PPG Industries, Inc.<br/>One PPG Place<br/>Pittsburgh, PA 15272</li> <li>(412) 434-4515 (U.S.)<br/>(514) 645-1320 (Canada)<br/>SETIQ Interior de la República: 800-00-214-00 (México)<br/>SETIQ Ciudad de México: (55) 5559-1588 (México)</li> </ul> |  |
| Technical Phone Number                                      | : (414) 764-6000 (OAK CREEK, WI) 8:00 a.m 5:00 p.m. Central   |  |

# Section 2. Hazards identification

| OSHA/HCS status                               | : This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).                             |
|---|---|
| Classification of the<br>substance or mixture | : CARCINOGENICITY - Category 1A<br>TOXIC TO REPRODUCTION - Category 1B  |
|   | Percentage of the mixture consisting of ingredient(s) of unknown acute toxicity: 23.9% (oral), 73.2% (dermal), 42.9% (inhalation) |
| GHS label elements                            |   |
| Hazard pictograms                             |   |
| Signal word                                   | : Danger  |
| Hazard statements                             | : May cause cancer.<br>May damage fertility or the unborn child.  |

### Section 2. Hazards identification

| Precautionary statements         |   |
|----------------------------------|---|
| Prevention                       | : Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves, protective clothing and eye or face protection.   |
| Response                         | : IF exposed or concerned: Get medical advice or attention.   |
| Storage                          | : Store locked up.  |
| Disposal                         | : Dispose of contents and container in accordance with all local, regional, national and international regulations.   |
| Supplemental label<br>elements   | : Sanding and grinding dusts may be harmful if inhaled. This product contains crystalline silica which can cause lung cancer or silicosis. The risk of cancer depends on the duration and level of exposure to dust from sanding surfaces or mist from spray applications. Trimethoxysilanes are capable of forming methanol if hydrolyzed or ingested. If swallowed, methanol may be harmful or fatal or cause blindness. Emits toxic fumes when heated. |
| Hazards not otherwise classified | : None known.   |

## Section 3. Composition/information on ingredients

| Substance/mixture | : Mixture                        |
|-------------------|----------------------------------|
| Product name      | : PTY340 WHT. 803 - 6-PK.NEW PIG |

| Ingredient name  | %           | CAS number     |
|--|-------------|----------------|
| <b>∠</b> ímestone  | ≥20 - ≤50   | 1317-65-3      |
| Propane-1,2-diol, propoxylated (MW<2000)                               | ≥10 - ≤14   | 25322-69-4     |
| calcium carbonate  | ≥5.0 - ≤10  | 471-34-1       |
| titanium dioxide   | ≥1.0 - ≤5.0 | 13463-67-7     |
| reaction mass of:N,N'-ethane-1,2-diylbis(hexanamide);12-hydroxy-N-[2-[ | ≤1.2        | Not available. |
| (1-oxyhexyl)amino]ethyl]octadecanamide;N,N'-ethane-1,2-diylbis         |             |                |
| (12-hydroxyoctadecanamide)   |             |                |
| crystalline silica, respirable powder (>10 microns)                    | ≤1.0        | 14808-60-7     |
| bis(2,2,6,6-tetramethyl-4-piperidyl) sebacate                          | <1.0        | 52829-07-9     |
| dibutylbis(pentane-2,4-dionato-O,O')tin                                | <1.0        | 22673-19-4     |
| crystalline silica, respirable powder (<10 microns)                    | <1.0        | 14808-60-7     |

SUB codes represent substances without registered CAS Numbers.

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

If ingestion, irritation, any type of overexposure or symptoms of overexposure occur during or persists after use of this product, contact a POISON CONTROL CENTER, EMERGENCY ROOM OR PHYSICIAN immediately; have Safety Data Sheet information available. Never give anything by mouth to an unconscious or convulsing person. **Description of necessary first aid measures** 

#### **Eve contact** : Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice. Inhalation : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. : Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water Skin contact or use recognized skin cleanser. Do NOT use solvents or thinners. Ingestion : If swallowed, seek medical advice immediately and show this container or label. Keep person warm and at rest. Do NOT induce vomiting.

#### Most important symptoms/effects, acute and delayed

| Potential acute health effects |   |  |
|--------------------------------|---|--|
| Eye contact                    | : No known significant effects or critical hazards.   |  |
| Inhalation                     | : No known significant effects or critical hazards.   |  |
| Skin contact                   | : No known significant effects or critical hazards.   |  |
| Ingestion                      | : No known significant effects or critical hazards.   |  |
| Over-exposure signs/symptoms   |   |  |
| Eye contact                    | : No specific data.   |  |
| Inhalation                     | : Adverse symptoms may include the following:<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations |  |
| Skin contact                   | : Adverse symptoms may include the following:<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations |  |
| Ingestion                      | : Adverse symptoms may include the following:<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations |  |

#### Indication of immediate medical attention and special treatment needed, if necessary

| Notes to physician<br>Specific treatments | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.</li> <li>No specific treatment.</li> </ul>   |
|---|---|
| Protection of first-aiders                | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

#### See toxicological information (Section 11)

### Section 5. Fire-fighting measures

| Extinguishing media                            |   |
|--|---|
| Suitable extinguishing media                   | : Use an extinguishing agent suitable for the surrounding fire.   |
| Unsuitable extinguishing media                 | : None known.   |
| Specific hazards arising from the chemical     | : No specific fire or explosion hazard.   |
| Hazardous thermal decomposition products       | : Decomposition products may include the following materials:<br>carbon oxides<br>metal oxide/oxides  |
| Special protective actions for fire-fighters   | <ul> <li>Promptly isolate the scene by removing all persons from the vicinity of the incident if<br/>there is a fire. No action shall be taken involving any personal risk or without suitable<br/>training.</li> </ul> |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.   |

### Section 6. Accidental release measures

| Personal precautions, protec   | tive equipment and emergency procedures   |
|--------------------------------|---|
| For non-emergency<br>personnel | : No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Provide adequate ventilation.<br>Wear appropriate respirator when ventilation is inadequate. Put on appropriate<br>personal protective equipment.   |
| For emergency responders       | : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| Environmental precautions      | : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).   |
| Methods and materials for co   | ntainment and cleaning up   |
| Small spill                    | : Move containers from spill area. Avoid dust generation. Do not dry sweep. Vacuum dust with equipment fitted with a HEPA filter and place in a closed, labeled waste container. Dispose of via a licensed waste disposal contractor.   |
| Large spill                    | : Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Avoid dust generation. Do not dry sweep. Vacuum dust with equipment fitted with a HEPA filter and place in a closed, labeled waste container. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

# Section 7. Handling and storage

### Precautions for safe handling

| Protective measures  | : Put on appropriate personal protective equipment (see Section 8). Avoid exposure -<br>obtain special instructions before use. Avoid exposure during pregnancy. Do not<br>handle until all safety precautions have been read and understood. Do not get in eyes<br>or on skin or clothing. Do not ingest. If during normal use the material presents a<br>respiratory hazard, use only with adequate ventilation or wear appropriate respirator.<br>Keep in the original container or an approved alternative made from a compatible<br>material, kept tightly closed when not in use. Empty containers retain product residue<br>and can be hazardous. Do not reuse container. |
|--|--|
| Special precautions  | : If this material is part of a multiple component system, read the Safety Data Sheet(s) for the other component or components before blending as the resulting mixture may have the hazards of all of its parts.  |
| Advice on general<br>occupational hygiene                          | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.  |
| Conditions for safe storage,<br>including any<br>incompatibilities | : Do not store below the following temperature: 5°C (41°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.  |

# Section 8. Exposure controls/personal protection

### **Control parameters**

### **Occupational exposure limits**

| Ingredient name   | Exposure limits                                     |
|---|---|
| <b>V</b> imestone   | OSHA PEL (United States, 5/2018).                   |
|   | TWA: 5 mg/m <sup>3</sup> 8 hours. Form: Respirable  |
|   | fraction  |
|   | TWA: 15 mg/m <sup>3</sup> 8 hours. Form: Total dust |
| Propane-1,2-diol, propoxylated (MW<2000)                              | None.   |
| calcium carbonate   | ACGIH TLV (United States).                          |
|   | TWA: 3 mg/m <sup>3</sup> Form: Respirable           |
|   | TWA: 10 mg/m <sup>3</sup> Form: Total dust          |
|   | OSHA PEL (United States).                           |
|   | TWA: 5 mg/m <sup>3</sup> Form: Respirable           |
|   | TWA: 15 mg/m <sup>3</sup>                           |
| titanium dioxide  | OSHA PEL (United States, 5/2018).                   |
|   | TWA: 15 mg/m <sup>3</sup> 8 hours. Form: Total dust |
|   | ACGIH TLV (United States, 1/2021).                  |
|   | TWA: 10 mg/m <sup>3</sup> 8 hours.                  |
| reaction mass of:N,N'-ethane-1,2-diylbis(hexanamide);12-hydroxy-N-[2- |   |
| (1-oxyhexyl)amino]ethyl]octadecanamide;N,N'-ethane-1,2-diylbis        | ,   |
| (12-hydroxyoctadecanamide)  |   |

Consult local authorities for acceptable exposure limits.

# Section 8. Exposure controls/personal protection

| _                                 |    |  |
|-----------------------------------|----|--|
| Recommended monitoring procedures | :  | If this product contains ingredients with exposure limits, personal, workplace<br>atmosphere or biological monitoring may be required to determine the effectiveness of<br>the ventilation or other control measures and/or the necessity to use respiratory<br>protective equipment. Reference should be made to appropriate monitoring standards.<br>Reference to national guidance documents for methods for the determination of<br>hazardous substances will also be required.  |
| Appropriate engineering controls  | :  | If user operations generate dust, fumes, gas, vapor or mist, use process enclosures,<br>local exhaust ventilation or other engineering controls to keep worker exposure to<br>airborne contaminants below any recommended or statutory limits.   |
| Environmental exposure controls   | :  | Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process equipment<br>will be necessary to reduce emissions to acceptable levels.  |
| Individual protection measur      | es |  |
| Hygiene measures                  | :  | Wash hands, forearms and face thoroughly after handling chemical products, before<br>eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Wash contaminated clothing before reusing. Ensure that eyewash stations and safety<br>showers are close to the workstation location.  |
| Eye/face protection               | 1  | Safety glasses with side shields.  |
| Skin protection                   |    |  |
| Hand protection                   | :  | Chemical-resistant, impervious gloves complying with an approved standard should be<br>worn at all times when handling chemical products if a risk assessment indicates this is<br>necessary. Considering the parameters specified by the glove manufacturer, check<br>during use that the gloves are still retaining their protective properties. It should be<br>noted that the time to breakthrough for any glove material may be different for different<br>glove manufacturers. In the case of mixtures, consisting of several substances, the<br>protection time of the gloves cannot be accurately estimated. |
| Gloves                            | 1  | For prolonged or repeated handling, use the following type of gloves:  |
|                                   |    | Recommended: nitrile rubber, natural rubber (latex)  |
| Body protection                   | :  | Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| Other skin protection             | :  | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| Respiratory protection            | :  | Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. The respiratory protection shall be in accordance to 29 CFR 1910.134.   |

# Section 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.  |
|------------------------------------|---|
| Chemical stability                 | : The product is stable.  |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.   |
| Conditions to avoid                | : When exposed to high temperatures may produce hazardous decomposition products.<br>Refer to protective measures listed in sections 7 and 8. |
| Incompatible materials             | : Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids.              |
| Hazardous decomposition products   | : Depending on conditions, decomposition products may include the following materials: carbon oxides metal oxide/oxides                       |

Carcinogen Classification code:

IARC: 1, 2A, 2B, 3, 4 NTP: Known to be a human carcinogen; Reasonably anticipated to be a human carcinogen OSHA: + Not listed/not regulated: -

#### Reproductive toxicity

**Conclusion/Summary** : There are no data available on the mixture itself.

#### Teratogenicity

**Conclusion/Summary** : There are no data available on the mixture itself.

#### Specific target organ toxicity (single exposure)

| Name                                    |            | Route of exposure | Target organs |
|---|------------|-------------------|---------------|
| dibutylbis(pentane-2,4-dionato-O,O')tin | Category 1 | -                 | -             |

#### Specific target organ toxicity (repeated exposure)

| Name  |            | Route of<br>exposure | Target organs |
|---|------------|----------------------|---------------|
| dibutylbis(pentane-2,4-dionato-O,O')tin             | Category 1 | -                    | immune system |
| crystalline silica, respirable powder (<10 microns) | Category 1 | inhalation           | -             |

#### Target organs

: Contains material which causes damage to the following organs: skin. Contains material which may cause damage to the following organs: lungs, upper respiratory tract, eyes.

#### Aspiration hazard

Not available.

#### Information on the likely routes of exposure

#### Potential acute health effects

| Eye contact         | : No known significant effects or critical hazards.   |
|---------------------|---|
| Inhalation          | : No known significant effects or critical hazards.   |
| Skin contact        | : No known significant effects or critical hazards.   |
| Ingestion           | : No known significant effects or critical hazards.   |
| Over-exposure signs | /symptoms   |
| Eye contact         | : No specific data.   |
| Inhalation          | : Adverse symptoms may include the following:<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations |

Product code FG557803105-6

Product name PTY340 WHT. 803 - 6-PK.NEW PIG

# Section 11. Toxicological information

|                                |         | <b>J</b>  |
|--------------------------------|---------|---|
| Skin contact                   |         | Adverse symptoms may include the following:<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations   |
| Ingestion                      |         | Adverse symptoms may include the following:<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations   |
| Delayed and immediate eff      | iects a | and also chronic effects from short and long term exposure  |
| Conclusion/Summary             | :       | There are no data available on the mixture itself. Trimethoxysilanes are capable of forming methanol if hydrolyzed or ingested. If swallowed, methanol may be harmful or fatal or cause blindness. This product contains crystalline silica which can cause lung cancer or silicosis. The risk of cancer depends on the duration and level of exposure to dust from sanding surfaces or mist from spray applications. Ingestion may cause nausea, diarrhea and vomiting. This takes into account, where known, delayed and immediate effects and also chronic effects of components from short-term and long-term exposure by oral, inhalation and dermal routes of exposure and eye contact. |
| Short term exposure            |         |   |
| Potential immediate effects    | :       | There are no data available on the mixture itself.  |
| Potential delayed effects      | s :     | There are no data available on the mixture itself.  |
| <u>Long term exposure</u>      |         |   |
| Potential immediate<br>effects |         | There are no data available on the mixture itself.  |
| Potential delayed effects      | s :     | There are no data available on the mixture itself.  |
| Potential chronic health e     | effects | <u>2</u>  |
| General                        |         | No known significant effects or critical hazards.   |
| Carcinogenicity                |         | May cause cancer. Risk of cancer depends on duration and level of exposure.   |
| Mutagenicity                   | :       | No known significant effects or critical hazards.   |
| Reproductive toxicity          | :       | May damage fertility or the unborn child.   |
|                                |         |   |

### Section 13. Disposal considerations

| Disposal methods          | : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. |
|---------------------------|--|
| Disposal should be in acc | ordance with applicable regional, national and local laws and regulations.   |

osal should be in accordance with applicable regional, national and local laws and regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Section 6. Accidental release measures

#### Additional information

DOT: None identified.IMDG: None identified.IATA: None identified.

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not applicable. to IMO instruments

### Section 15. Regulatory information

#### United States

**United States inventory (TSCA 8b)** : All components are active or exempted.

#### SARA 302/304

SARA 304 RQ : Not applicable.

#### Composition/information on ingredients

No products were found.

#### SARA 311/312

Classification

: CARCINOGENICITY - Category 1A TOXIC TO REPRODUCTION - Category 1B

#### Hazardous Material Information System (U.S.A.)

```
Health : 1 * Flammability : 0 Physical hazards : 1
```

(\*) - Chronic effects

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on MSDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.
