

PIG Heavy-Duty Drain Insert

Instructions

Step 1 — Drain Insert installation

Install Drain Insert in catch basin, making sure emptying straps are laid flat outside the basin and held in place by drain grate.

Step 2 — Cover flap pockets and straps with soil

Hold down removal flap pockets and emptying straps by covering with soil.

Step 3 — Compare installation to image

Check that your installation matches the image of a properly installed drain insert.

Step 4 — Drain Insert removal

To extract Drain Insert, first remove soil covering removal flap pockets and insert rebar through pockets.

Step 5 — Remove grate

Remove catch basin cover grate.

Step 6 — Lift Drain Insert out

Remove Drain Insert from catch basin by attaching to both rebars and lifting out with available equipment (fork truck, backhoe, etc.).
