

Technical Data Sheet

This product contains no GHS hazards and are therefore exempt from OSHA Hazard Communications Regulations for Safety Data Sheets.

Technical Data Sheet: TDS-006

Product Identifier: PIG® Lite-Dri® (PLP201)

General Use: PIG® Lite-Dri® is a 100% recycled floor absorbent that will absorb grease, oil, water and other non-aggressive chemicals. PIG® Lite-Dri® Absorbent is a non-selective loose cellulose absorbent, designed to absorb and contain oils, water and non-aggressive fluids.

Composition:

CAS: 9004-34-6 Cellulose Fiber >99% CAS: 8042-47-5 Mineral Oil <1%

Storage Recommendations: Store in a cool, dry environment. Avoid long-term contact with direct or reflected sunlight or other sources of UV light, such as high- intensity lighting.

Shelf Life: Indefinitely, provided Storage Recommendations are observed.

Personal Protective Equipment (PPE):

Gloves: cloth, canvas, leather, or rubber gloves are recommended as a good industrial practice.

Eyes: Safety goggles or glasses with side shields if dust is present and as a good industrial practice.

Fire Control Measures: Unused Form: Water, Foam, or Carbon dioxide

Used Form: Extinguishing agents appropriate for absorbed liquid

Physical Properties:

pH: Not Applicable
Freezing Point: Not Applicable
Initial Boiling Point and Range: Not Applicable
Flash Point: 370°F (188°C) Method: Open Cup
Relative Density (H₂O = 1): Not Established

Solubility in Water (25°C): <1%

Auto-ignition Temperature: Not Established

Stability & Reactivity:

Conditions of Reactivity: Reacts to elevated temperatures

Incompatible Materials: Strong acids, Strong Bases, Strong Oxidizing or Reducing Agents Conditions to Avoid: Excessive heat or flame or mixing with incompatible materials

Hazardous Decomposition: Nitrous oxides, ammonia, sulfur dioxide

Waste Disposal: This material is NOT defined as hazardous by the Resource Conservation and Recovery Act. It is the product user's responsibility to determine at the time of disposal whether a material containing the product or derived from the product should be classified as a hazardous waste.
