

Technical Data Sheet

These goods are considered Articles and are therefore exempt from OSHA Hazard Communications Regulations for Safety Data Sheets.

Technical Data Sheet: TDS-055

Product Identifier: PIG® Thick Liquids Absorbent Mat Pad (PAN202, MAT209, MAT210)

General Use: PIG® Thick Liquids Absorbent Mat Pad are designed to absorb thick, non-aggressive spill liquids such as paint, glue, resins, syrup, shampoo, etc. Can also be used to collect and trap debris.

Composition:

CAS: 25038-59-9 Polyester Fibers	55-75%
CAS: Not Avail Polyvinyl chloride polymer	19-39%
CAS: 6422-86-2 bis(2-ethylhexyl) terephthalate	2-6%
CAS: 20018-09-1 Diiodo methyl-Ptolysulfone Antimicrobial	<1%
CAS: Not Avail FINISH	<1%

Storage Recommendations: Store in a cool, dry environment. Avoid long-term contact with direct or reflected sunlight or other sources of UV light, such as high- intensity lighting.

Shelf Life: Indefinitely, as long as provided Storage Recommendations are observed.

Personal Protective Equipment (PPE):

Gloves: cloth, canvas, leather or rubber gloves are recommended for extended use; as a good industrial practice.

Eyes: Safety goggles or glasses with side shields as a good industrial practice

Fire Control Measures: Unused Form: Water, Foam, or carbon dioxide

Used Form: Extinguishing agents appropriate for absorbed liquid

Physical Properties:

pH: Not Applicable

Melting Point: Binders soften, fibers melts >392°F (>200°C)

Initial Boiling Point and Range: Not Applicable

Flash Point: Not Available Method: Not Applicable

Relative Density (H₂O = 1): Not Determined

Solubility in Water (25°C): Practically Insoluble

Auto-ignition Temperature: Not Determined

Stability & Reactivity:

Conditions of Reactivity: Not Established

Incompatible Materials: Hydrocarbon solvents, strong acids and bases can degrade non-wovens

Conditions to Avoid: Excessive heat above 150°C or flame or mixing with incompatible materials

Hazardous Decomposition: Oxides of carbon, hydrogen, chloride, nitrogen oxides, small amounts of Aliphatic and aromatic hydrocarbons, antimony oxide.

Waste Disposal: This material is NOT defined as hazardous by the Resource Conservation and Recovery Act. It is the product user's responsibility to determine at the time of disposal whether a material containing the product or derived from the product should be classified as a hazardous waste.
