

Technical Data Sheet

This product contains no GHS hazards and are therefore exempt from OSHA Hazard Communications Regulations for Safety Data Sheets.

Technical Data Sheet: TDS-1010

Product Identifier: PIG Oil Remediator for Soil, Grass and Water (CLN950-CLN953)

General Use: General Use: PIG® Oil Remediator for Soil, Grass and Water is a special enzyme formula that enhances naturally occurring microbes that leave only carbon dioxide and water behind. By providing “food” for naturally occurring microbes, this will remediate hydrocarbons on natural surfaces such as soil, grass, and water.

Composition:

CAS: 7732-18-5	Water	90-95%
CAS: 112-34-5	2-(2-butoxyethoxy)ethanol	1-5%

Storage Recommendations: Store in a cool, dry environment. Avoid long-term contact with direct or reflected sunlight or other sources of UV light, such as high- intensity lighting.

Shelf Life: 10 years if product is kept in the unopened, original container in a cool dry environment out of direct UV sunlight.

Personal Protective Equipment (PPE):

Fire Control Measures: Unused Form: Product is water-based and will not support a flame

Physical Properties:

pH:	7
Freezing Point:	32° F (0° C)
Initial Boiling Point and Range:	212° F (100° C)
Flash Point:	212°F (100° C)
Solubility in Water (25°C):	Complete
Auto-ignition Temperature:	Not determined

Stability & Reactivity:

Conditions of Reactivity:	None Known
Incompatible Materials:	None Known
Conditions to Avoid:	Do not freeze or expose to temperatures over 150°F (65°C) these temperatures pose no hazard but are not compatible with this product.
Hazardous Decomposition:	Not established

Waste Disposal: This material is NOT defined as hazardous by the Resource Conservation and Recovery Act. It is the product user’s responsibility to determine at the time of disposal whether a material containing the product or derived from the product should be classified as a hazardous waste.
