

Technical Data Sheet

This product contains no GHS hazards and are therefore exempt from OSHA Hazard Communications Regulations for Safety Data Sheets.

Technical Data Sheet: TDS-205

Product Identifier: PIG® Formaldehyde Neutralizing Loose Absorbent Powder

General Use: PIG® Formaldehyde Neutralizing Loose Absorbent Powder is a loose absorbent that will absorb and solidify formaldehyde, formaldehyde base fixatives; glutaraldehyde and other aldehyde solutions while helping to eliminate harmful vapors.

Composition:

CAS: 57-13-6 Urea 90%
CAS: 77-92-9 Citric Acid 10%

Storage Recommendations: Store in a sealed container, in a cool, dry environment. Avoid long-term contact with direct or reflected sunlight or other sources of UV light, such as high- intensity lighting.

Shelf Life: 3-Years in original sealed container, provided Storage Recommendations are observed.

Personal Protective Equipment (PPE):

Gloves: Impervious gloves

Eyes: Safety goggles or glasses with side shields as a good industrial practice

Fire Control Measures: Product will not burn.

Used Form: Extinguishing agents appropriate for absorbed liquid

Physical Properties:

pH: Not Applicable
Melting Point: Not Determined
Initial Boiling Point and Range: Not Applicable
Flash Point: Not Available Method: Not Applicable
Relative Density (H₂O = 1): 0.695
Solubility in Water (25°C): Not Determined
Auto-ignition Temperature: Not Determined

Stability & Reactivity:

Conditions of Reactivity: Reacts with Sodium hypochlorite or Calcium hypochlorite
Incompatible Materials: Strong Oxidants
Conditions to Avoid: Generating Dust or mixing with incompatible materials
Hazardous Decomposition: Oxides of carbon and nitrogen, ammonia

Waste Disposal: This material is NOT defined as hazardous by the Resource Conservation and Recovery Act. It is the product user's responsibility to determine at the time of disposal whether a material containing the product or derived from the product should be classified as a hazardous waste.
