

Spill Response Tool Kit for On Water

Instructions

The tools in this water-resistant nylon carrying bag are specially designed to help responders clean up saturated absorbents and other materials used for spills on water.

1 PIG Picker

Pick up saturated socks, mat pads and pillows or place the absorbents during the initial containment of the spilled liquid.

2 Telescoping Pole

Extends to 12' and locks at any length to position or retrieve floating booms and pillows on water. For use with the retrieval hook.

3 Retrieval Hook

Use the steel hook with the telescoping pole to snag absorbents floating on water.

4 Telescoping Response Shovel

Clean up saturated mat pads, pillows, loose absorbent or debris in the spill area.

5 Slotted Shovel

Capture saturated loose absorbents, mat pads or pillows while draining excess water.

6 Large Disposal Bags and Ties

Temporarily store saturated absorbents.

Spills on water are easier to clean up with the tools in this specially designed kit.
